Dr. Stacy Musselman helps you reach the stars with her Quantum Care program. This holistic healthcare program provides you with easy to follow steps and guidance to live your most joyful and healthy life.

She does this using Functional Medicine principles in conjunction with a holistic approach to healthcare that puts the patient first.

She addresses symptoms and restores your health and wellness using in-depth bloodwork analysis. This helps to identify underlying causes of disease and restores balance and ease forms of un-wellness.

"The Functional Medicine approach works to find the root cause of your symptoms or conditions and works to prevent others," said Dr. Musselman.

This is done by looking for the patterns and trends in comprehensive bloodwork. By uncovering the underlying conditions - not just the symptoms - you can achieve long-lasting results.

Patients wholeheartedly agree.

"Before the Quantum Care program with Dr. Musselman, I wasn't getting a full night's rest and my energy levels were low. Now I feel balanced and full of energy. It was incredible to see all the information Dr. Musselman's bloodwork reveals!"

With Quantum Care the patient is involved in the process, and not a helpless onlooker. "A varied approach is used to gather information about your current health, diet and lifestyle. This uncovers ALL of the factors that might be contributing to your symptoms and health conditions."

Quantum Care Protocols are highly individualized and designed to promote your long-term health and wellness.

This personalized program is what separates Dr. Musselman from others in her field. She cares about the patient, and is invested in your positive outcomes and long lasting harmony.

Her clients are aware of her commitment and are grateful for her intuitive and well-honed functional medicine tools.

"The Quantum Care program helped me tremendously in healing my body and spirit. Learning the program and getting my body back in balance gives me inner peace and makes me feel safe. I recommend Quantum Care and Dr. Musselman to anyone who wants to better themselves physically and spiritually. The results will amaze you. Thank you Dr. Musselman, you are awesome!!!"

Are you interested in losing weight? Having trouble falling asleep or staying asleep? Is your sex drive waning? Dr. Musselman can help you achieve your goals and feel your best, all while enjoying the process. "I lost 35 pounds with Dr. Musselman's program and never felt better," said one patient.

This preventative approach and non-synthetic protocols are vital to creating a long healthy and pain-free life. Why wait for a symptom to manifest just to take a prescription pill when all the important information is in your bloodwork?

By looking at the patterns and the probability of dysfunction in bloodwork, Dr. Musselman can identify things other doctors cannot. That is key to gaining optimal health and a happier existence, especially in these challenging times.

Prevention and a healthy lifestyle not only increase your health and wellbeing, but also your longevity. And, the most important thing - being pain free.

Have you ever been to a doctor and said you didn't feel well, and

the doctor's response was: "Everything looks fine, just take this pill."

Dr. Musselman understands there is a better approach. That approach is the Quantum Care way.

Patients agree. "Dr. Musselman was able to address issues my other doctors couldn't. I recommend her to all my clients and they all come back to me with success stories!"

The great news is that Dr. Musselman and The Quantum Care Program is now available in Boca Raton! Treatment is administered under the care of a medical doctor.

They include IV therapy, Vitamins, Hydration and Enzyme Replacement Therapy and Injectable medications such as Monoclonal Antibodies. In addition, the Boca Raton practice also offers Therapeutic Apheresis, anti-aging treatments, Alzheimer's indicators, Lab Testing, COVID-19 testing and Immune Profile Panels.

Dr. Musselman creates a custom personalized health improvement plan tailored specifically to you that can restore balance and harmony of your mind and body!

"I want my patients to have answers and solutions to what is bothering them so they can live a healthy and joyful lifestyle."

Everyone is looking for a sense of well-being and a happy, healthy pain free lifestyle. "Schedule an appointment, and let's address the issues that are getting in the way of you living your best life."

Quantum Care Takes your Health seriously. Don't you think it's time you did?

"If you, or your family or friends, would like to donate blood there is up to a \$75 cash incentive (it takes about 15 minutes). It's a WONDERFUL way for the body to eliminate old stagnant blood and facilitate making healthy new blood. It also burns up to 650 calories! I donate blood as often as possible. Please keep me in mind if you, family or friends would like to donate."
